## Spectator Jacket 2.5m Jet Display BACK

## Spectator Jacket 2.5m Jet Display FRONT

## Setting up your artwork

## Layout:

When setting up your artwork please ensure all text and logos are within the red dotted line (safe area) and any background colour should extend to the outer edge (bleed line) of the artboard.

Ensure when saving files that all text is outlined and images embedded. To ensure good quality printing images need to be a minimum of 75dpi.

Final artwork should be CMYK and saved preferably as a PDF but can be supplied as ai files.

If your software allows please remove all guides before sending us your file
